
EDUCATION

Anurag univeristy
Aritificial Intelligence

SKILLS & SUMMARY

- Languages: Python, SQL
- Frameworks: Pandas ,Numpy, Matpllotlib
- Tools : MYSQL, Excel, PowerPoint
- Platforms: Jupyter Notebook, Visual Studio
- Soft Skills: People Management, Excellent Communication, Teamwork

EXPERIENCE

I gained practical experience by completing the Deloitte Australia Data Analyst Virtual Job Simulation, where I worked on real-world business problems, performed data cleaning and analysis, and developed insights to support decision-making. This experience enhanced my skills in Excel, data storytelling, and critical thinking. Alongside this, I have built personal projects using Python, SQL and continue to grow through hands-on learning and certifications.

CERTIFICATIONS
